

Entrepreneurial Leader, Transportation Engineering/Planning

Kittelson & Associates, Inc. (KAI), a growing, values-driven, tech-savvy, national transportation engineering and planning consulting firm (www.kittelson.com) seeks a market and business leader to help expand the firm's Florida/Southeast Atlantic region operations. The candidate shall have the skills, experience and reputation that will allow him or her to capitalize on existing relationships and create new opportunities in transportation including ITS, transit, planning, traffic operations, development services, and design.

The successful candidate will be an entrepreneur possessing leadership skills and a strong desire to create new opportunities for the firm. Position requires a Bachelors or Masters degree in Engineering or related fields; 10+ years of progressive leadership experience; practical business judgment; exceptional communication skills; and an ability to create and evaluate the risks and rewards associated with growth strategies.

Position offers competitive salary and benefits including a unique, values-driven, employee-focused culture. To apply, please e-mail your resume and cover letter addressing your qualifications to hr@kittelson.com.
