

Standard Plans Publication Engineer-PEIII

The Florida Department of Transportation (FDOT) has an excellent employment opportunity in the Central Roadway Design Office. Please note that we are accepting applications until February 28, 2019.

FDOT Central Roadway Design Office is seeking a highly motivated professional engineer to supervise the team responsible for the publication of the Department's Standard Plans. Working with a peer group of Senior Engineers, the selected candidate will lead the publication of the Standard Plans; assist in the development of statewide criteria, standards, and procedures; provide technical advice and assistance to districts and their consultants on issues related to engineering and design policy, rules, criteria, and standards; and prepare and deliver presentations and training on a statewide basis.

This is a supervisory position which will be responsible for, among other things, planning, organizing, and coordinating employee assignments and schedules. The incumbent will be responsible for providing meaningful feedback to employees, motivating continued excellence, mentoring and role-modeling, and leading the team through improved effectiveness in the delivery of Standard Plans. The selected candidate will join a top-performing team where communication and teambuilding skills will be critical.
